

# HEAT LAMPS

Marsal Heat Lamps utilize halogen bulbs for both heat and illumination. Our units are manufactured in custom built sizes to fit any location.

Marsal Heat Lamps are composed of a stainless steel body and aluminum reflector. Our unique design creates an even heat pattern over the entire length of the unit which maintains peak flavor without continuous cooking or drying.

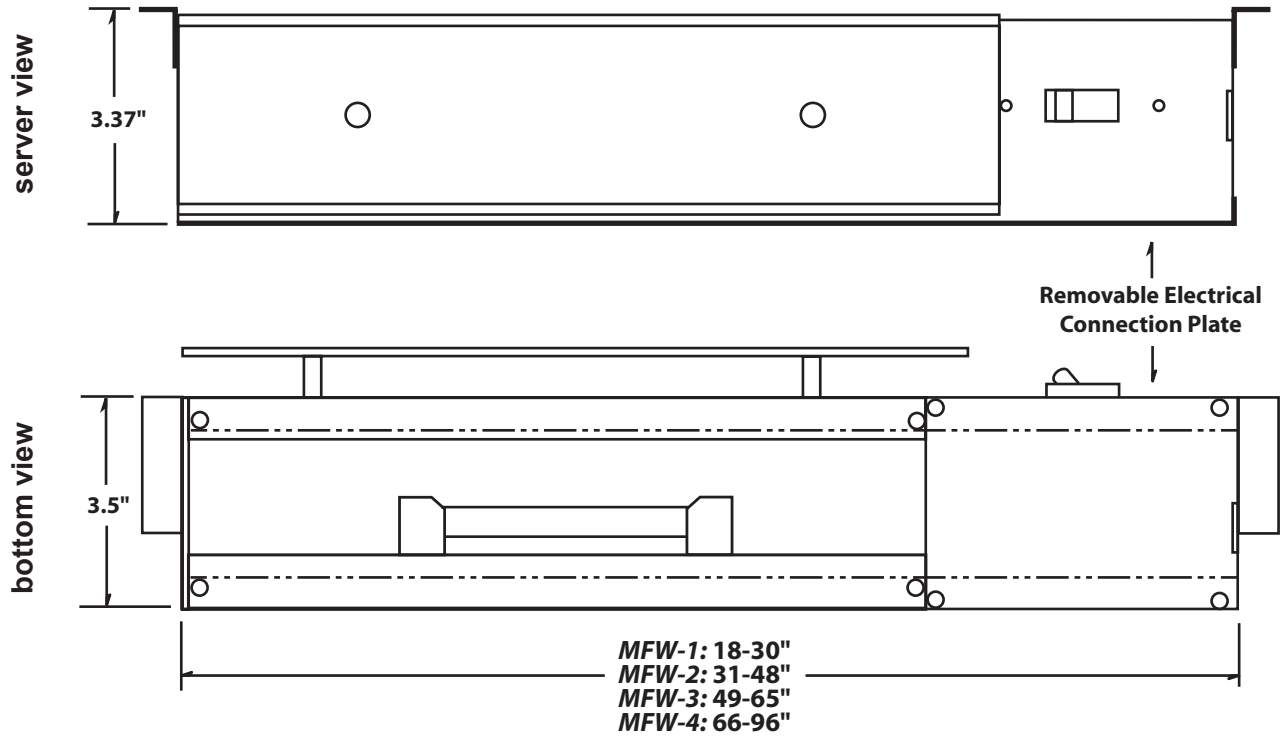

**Model No. MFW 1, 2, 3, & 4**

*(Model number indicates the number of bulb per unit)*

**Electrical Requirements:** 110 VAC - 60 HZ Single Phase

# HEAT LAMPS SPECIFICATIONS

120 VAC Single Phase
